## EDUCATION

|                                                                               |             |
|-------------------------------------------------------------------------------|-------------|
| • <b>HKUST(GZ), Society Hub</b>                                               | 2024-2028   |
| <i>Ph.D. in Innovation, Entrepreneurship and Policy</i>                       | Guangzhou   |
| ◦ Supervisor: Asst. Prof. Luoye Chen, co-supervised by Asst. Prof. Chao Zhang |             |
| • <b>SUSTech</b>                                                              | 2022-2024   |
| <i>Master in Statistics and Data Science</i>                                  | Shenzhen    |
| ◦ Supervisor: Prof. Bingyi Jing                                               |             |
| • <b>Shenzhen University</b>                                                  | 2018 - 2022 |
| <i>B.A. in Physics</i>                                                        | Shenzhen    |

## RESEARCH INTERESTS

Computational Social Science, NLP, Agent-Based Modeling, Complex Networks, and Agricultural Supply Chains

## PUBLICATIONS AND WORKING PAPERS

1. **On Large-Scale System of Sparse Linear Equations with Tree Structures and its Applications to Fiber Optic Networks.** Zejian Xie, Songxin Zhang, Sai Hao, Zhanghao Chen, Ya Wang, and Bing-Yi Jing. *Journal of the American Statistical Association*, forthcoming (Special Issue on Statistical Science in Artificial Intelligence). *All authors contributed equally.*
2. **Beyond the Home-Work Separation: Zoning Flexibility and the Geography of Remote Work across U.S. Municipalities** (with Luoye Chen), working paper.

## PROJECTS

|                                                        |                   |
|--------------------------------------------------------|-------------------|
| • <b>Time Synchronization for Large-Scale Networks</b> | 2022.12 - 2023.12 |
| <i>2023 Huawei Spark Award</i>                         |                   |
| • <b>Network Data Traffic Analysis</b>                 | 2023              |
| <i>Huawei</i>                                          |                   |

## CONFERENCE PRESENTATIONS

**2026:** ICSC 2026 (to be presented); Young Statisticians Association Annual Meeting, SWUFE; 8th PKU Quantitative Social Science Workshop.  
**2023:** 1st JCSDS, Beijing.

## EXPERIENCE

|                      |                 |
|----------------------|-----------------|
| • <b>Huawei</b>      | 2023, 2025      |
| <i>Ambassador</i>    |                 |
| • <b>Vivo</b>        | 2023.06-2023.08 |
| <i>Data Engineer</i> | Intern          |

## TEACHING EXPERIENCE

|                                                                   |             |
|-------------------------------------------------------------------|-------------|
| FTEC6910 Machine Learning for Finance, HKUST(GZ)                  | 2026 Spring |
| CNGF5020 Environmental Modeling and Big Data Analytics, HKUST(GZ) | 2025 Fall   |
| STA217 Introduction to Data Science, SUSTech                      | 2023 Fall   |
| MAT210 Mathematical Statistics, SUSTech                           | 2023 Spring |
| PHY201 Statistical Mechanics, Shenzhen University                 | 2020 Spring |

## AWARDS AND HONORS

|                                                                                 |             |
|---------------------------------------------------------------------------------|-------------|
| Meritorious Winners, COMAP Mathematical Contest in Modeling                     | 2021        |
| Outstanding Innovative Talent Scholarship, Shenzhen University                  | 2018-2022   |
| Excellent Graduate Student, SUSTech                                             | 2023 & 2024 |
| Second Prize, The 13th Chinese National College Student Mathematics Competition | 2021        |

## ADDITIONAL INFORMATION

**Programming:** Python, R, Stata, LaTeX    **Database:** Presto, SQL, PySpark  
**Languages:** Mandarin Chinese (native), English    **Interests:** Weiqi, Swimming, Tennis
